Project Name/Description		Total Project Cost
DCAM	Energy Services Projects (25A)	\$50,000,000
DCAM	Energy Metering	\$3,500,000
DCAM	REPAIRS TO POWER PLANT ROOF - UMASS BOSTON	\$ 4,650,000
DCAM	HVAC EFFICIENCY AND WATER SAVINGS PROJECT – BRISTOL	\$ 4,104,339
DCAM	UMASS Dartmouth-Comprehensive Energy Efficiency	\$ 18,000,000
DCAM	Taunton State Hospital Energy Retrofit	\$ 7,000,000
DCAM	State Police Training Academy-Comprehensive Energy Efficiency	\$ 2,000,000
DCAM	Energy Retrofits at Various Court Facilities	\$ 24,000,000

Energy Efficiency and Renewable Energy

DOER	Universal smart metering infrastructure: Smart meters in all households to facilitate energy efficiency (EE), baseline energy use data and real time pricing. DOER and DPU administered, utility implemented	30,000,000
DOER	Electric car infrastructure: implement electric car and smart grid pilot project. DOER administered.	5,000,000
DOER	Accelerate energy efficiency and solar energy projects at state and municipal buildings: Reduce energy consumption at state, and municipal buildings. Solar on every feasible school. Administered by DOER, Leading by Example, Green Communities, MRET.	100,000,000
DOER	Wind Technology Test Facility: Provide \$20 million to complete financing for one of only two DOE supported facility in the country to test wind blades. The facility, which received a \$2 million award for DOE in 2007, would support continued innovation for the American wind industry. With MRET	20,000,000
DOER	Offshore renewable energy R&D platform and research vessel	10,000,000
DOER	Rebates for replacement of residential oil furnaces with biomass pellet furnaces	200,000,000
DOER	Diesel/Hybrid Buses: Replace all inefficient buses in the regional transit authority fleets with diesel/hybrid vehicles	20,000,000
DOER	Hybrid and Plug-in Hybrid Fleet Expansion: Replace all inefficient state vehicles with hybrid or plug-in hybrid vehicles; provide rebates for replacement of old taxis with hybrid or plug-in hybrid vehicles	5,000,000
DOER	Renewable energy for forest industries: reduce energy costs for sawmills and other firest-related industry by replacing inefficient diesel generators with biomass units. With MRET and DAR	5,000,000

Water Infrastructure

DEP	Advanced Water metering infrastructure: Provide private and public water utilities with grants to upgrade household meters.	30,000,000
